ECON Hearing – "LRAs and the Recovery and Resilience Plans"

The Recovery and Resilience Facility (RRF) is the keystone of the EU's recovery strategy. Its unprecedented scale makes it paramount to ensure that local and regional authorities (LRAs) are actively involved in its governance, and that its implementation reflects their needs and challenges on the ground. The CoR is fully mobilised to that end. To first gather evidence, the Committee has launched together with CEMR a targeted [consultation](#) of associations of LRAs in order to assess to what extent they are involved in the preparation of the national Recovery and Resilience Plans (RRPs), which will form the basis for the implementation of the RRF.

The results of this joint consultation will be presented, before a political round table, in a hearing organised within the 22 January 2021 ECON meeting. The hearing will also be an opportunity to put forward recommendations to the Commission and Member States before the finalisation of the RRFs in April, and will feed into a CoR flagship initiative: the October 2021 "Recovery and Resilience Forum".
